Letter of Recommendation

8th October 2024

Don Bosco
Institute of Technology
Mumbai, INDIA

Dear Dr Cook and Dr Afaq,

I am writing to you to express my sincere congratulations regarding the thesis of your esteemed student Kulsoom Saima BUGHIO. In my many years of supervision and academic review I have been fortunate enough to review many dissertations and publications. In particular, I wanted to convey my genuine thanks and gratitude for the opportunity to review and to grade the thesis and doctoral work of Kulsoom Saima BUGHIO. Her work on the use of knowledge graphs to integrate the detection of vulnerabilities is exceptionally well crafted and provides a tremendous step forward in the combination of semantic modelling and knowledge graphs to create a solution to the rapidly emerging threat preventing attacks upon IoMT patients.

This is exceptionally high-quality research, and I wanted you to know that I have recommended Kulsoom Saima Bughio for the ECU University Medal. I believe that her work and the significance of her contribution warrants her inclusion as a worthy recipient of such an honour. I wish her well in this pursuit, as well as her ongoing further research and academic work. She is clearly a future star who has already begun to make an impact in security domain of Medical IoT devices.

My very kindest regards

Sincerely

Amiya Kumar TRIPATHY, PhD
Professor, Computer Engineering
Dean, Quality Assurance
